

SOLAR SALES COMMISSION AGREEMENT

Date: _____

This Solar Sales Commission Agreement ("Agreement") is between **Caro Electric LLC**, CSLB License No. 1129551 ("Contractor"), represented by Vicente Caro, and **Yash Tilvawala** ("Salesperson").

1. Customer and project

Customer: Satya Yaswanth Puvvada

Installation address: 46520 Eastwood Dr N, Oakhurst, CA

Contract price: \$43,760

Proposed system: 26 Jinko 470-watt panels, one Tesla Powerwall 3, one expansion pack, and a gateway with full backup.

2. Commission

Total commission: \$6,300 for the project, including the PV system, Powerwall 3, and one expansion pack.

3. Commission payment schedule

Contractor will pay the commission in two installments:

- \$3,150 (50%) when the customer signs the project contract.
- \$3,150 (50%) when installation of the project is complete.

4. Customer relationship and commission protection

The parties acknowledge that Salesperson introduced Contractor to the customer and helped establish the opportunity at the address listed in Section 1. If Contractor or an affiliated company enters into any agreement with this customer for solar or battery work at that address, the commission in Section 2 remains payable, even if the scope of work, project paperwork, project number, or personnel involved changes.

Contractor will keep Salesperson informed of material communications and project changes relating to this customer and address. The parties agree to work together in good faith to document any changes to the project or commission in writing.
